

wetco product line

Simply straightforward – and a simple choice of container size

You need just two to three products from the wetco product line to meet all of your everyday cleaning requirements. The result is simple, efficient cleaning. The choice is yours! You can also choose the size of container that is best suited to your needs and your particular premises. Our products come in a range of sizes, from 0.5 liter bottles to 200 liter containers. All wonderfully simple, as we're sure you will agree!

The wetco product line – five professional products for your everyday cleaning needs, all from a single source!

wetco product line

Five fingers – five professional products for the professional cleaner

You can count the number of wetco products that you need for everyday cleaning on the fingers of one hand – and you may not even need that many. Your daily instruction and storage requirements are reduced to a minimum. The five professional products are perfectly coordinated and offer maximum performance. The Wetco products are simple to use and are biodegradable – so are kind to the environment.

**wetco surf**  
**The fragrant foam cleaner**  
For the wet mopping of surfaces, glass and floors. wetco surf is foamable and is therefore economical to use. Its specialist subject: manual cleaning!

**wetco floor**  
**The universal, machine-compatible product**  
For use in all scrubber dryers. wetco floor demonstrates its strength when it comes to the daily cleaning of floors. But it can also be used for the manual cleaning of surfaces. Its specialist subject: ultra-strong cleaning performance!

**wetco san**  
**The limescale remover with no warning labels**  
For acid-resistant surfaces in sanitary areas. wetco san can do what's needed: it dissolves limescale, is non-irritant and non-corrosive, and is foamable. Its specialist subject: non-hazardous foam cleaning for limescale removal.

**wetco cristal**  
**The brilliant ready-to-use cleaning product**  
For glass, mirrors and other surfaces. wetco cristal achieves a brilliant finish in a short space of time. Its specialist subject: smear-free, clean surfaces – "cristal" clear.

**wetco san neutral**  
**The acid-free sanitary cleaner**  
For acid-sensitive surfaces such as marble, joints or aluminum. The pH-neutral sanitary cleaner is particularly gentle – without compromising on effectiveness – and is foamable. Its specialist subject: gentle sanitary cleaning for acid-sensitive surfaces.

Gentle – naturally

The five professionals in maintenance cleaning fulfill the strict ecologic Nordic Swan label requirements. They are biodegradable, environmentally-friendly and gentle on surfaces. At the same time, they offer the customary top performance.

Clever cleaning?  
As a professional, you have everything in hand!

It needs to be fast, clean and cost-effective. For optimal everyday cleaning, you need to have your wits about you – or just have the correct products to hand. There are just five products, all color-coded for ease of identification: green for floors, blue for surfaces, red for sanitary areas. All five are non-hazardous to use, so have no special warning labels. Your employees will need very little training. Safety is therefore a key feature!
