

Wetrok Reshine Sport

Two premier league resin

The biggest problem in indoor sports facilities: Residues of handball resin. Practical experience with conventional cleaning products shows: Either these stubborn resin stains are hard to remove, or you take away the playing field markings along with them – neither of which are viable long-term solutions.

Is your gym floor also covered with shoe and ball marks left by inconvenient resin? Wetrok presents THE solution: Wetrok Reshine Sport (special floor cleaner for the entire space) and Wetrok Reshine Sport Booster (spot cleaner for extremely stubborn resinous spots). Both cleaning products remove all types of resin and dirt without residues.

Advantages

Effective removal of all types of resin

While conventional resin removers are often only suitable for removing a single type of adhesive, Reshine Sport scores points by removing any type of resin. Water-soluble resin and natural tree resin are removed without leaving a trace. After all, you rarely know which type of resin the other team is going to bring to the court.

Intense cleaning with top results

Reshine Sport can even take on dried resin stains, against which other adhesive removers are powerless. The highly effective resin remover is suitable for maintenance as well as intensive cleaning.

Retains floor coverings & court markings

High-performance resin cleaners are reliable when it comes to removing residue, however, they often damage the court markings or the floor covering. Only one thing is removed when you use Reshine Sport as a cleaner: the resin.

Wetrok Reshine Sport Booster: Spot cleaner for very stubborn resin stains (suitable beyond the court)

Is it not possible to remove the stains even with Wetrok Reshine Sport? Then the only solution is to reach for Wetrok Reshine Sport Booster. This intensive spot cleaner removes even stubborn and dried-on resin stains – both on the floor and on surfaces.

- **THE solution for dealing with tough cases**
- **no contact time (undiluted)**
- **no drops (thick consistency)**
- **versatile. Playing courts, goal posts, benches, changing rooms**
- **also suitable for pretreatment**

Wetrok Reshine Sport & Wetrok Reshine Sport Booster

An unbeatable duo for every handball court
