

Wetrok edge cleaning & manual cleaning tool  
Your equipment duo to combat heavy and stubborn dirt

**wetrok**<sup>®</sup>

## Two tools to handle heavy dirt on walls and floors

Do you want to remove stubborn dirt efficiently and with less physical effort from walls, countertops and more? Then we have the ideal assistance for you: the new manual cleaning tool and edge cleaning tool from Wetrok. This duo simplifies the cleaning of edges and corners, while also making your work process easier.

### Benefits:

#### ROBUST

##### Maximum resistance to chemicals

High-quality plastics make the tool highly durable and guarantee optimal resistance to cleaning agents, and even to powerful chemicals.

#### ERGONOMIC

##### Minimal weight

Thanks to strategic use of glass fibres, the tool is extremely lightweight and easy to use.

#### EFFICIENT

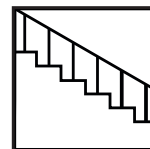

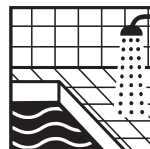

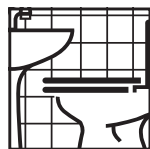

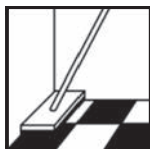

##### Extra strong pad sole attachment

On the underside of the tool, 1560 fine hooks are waiting to anchor the pad optimally. This ensures an ideal hold during work, and effortless removal afterwards.

**Tip:** To fasten the pad optimally, move the pad slightly forward and backward as well as to the left and right after hooking it in.

### Optimal areas of application:

### Did you know ...

that all the different types of Wetrok pads are suitable for use with the edge cleaning tool? The choice is yours!

## Special design for more efficient work

Use these two helpers for all hard-to-access spots: narrow stairways, ceramic surfaces in the kitchen and wall coverings in the bathroom, as well as for efficient cleaning of all medium-sized surfaces.

Your advantage: Save time and thus costs, reduce effort.

### Benefits:

#### Edge cleaning tool:

##### Remains in optimal working position

The tool is designed so that it remains in the configured angle of inclination during horizontal use: even when using very wet, heavy pads. Manual adjustment is not necessary.

##### Healthy posture thanks to handle with adjustable length

With the telescopic handle, you can work using the optimal handle length for you at all times. For even easier work, the telescopic handle is available in two sizes.

#### Manual cleaning tool:

##### Extra-ergonomic handle

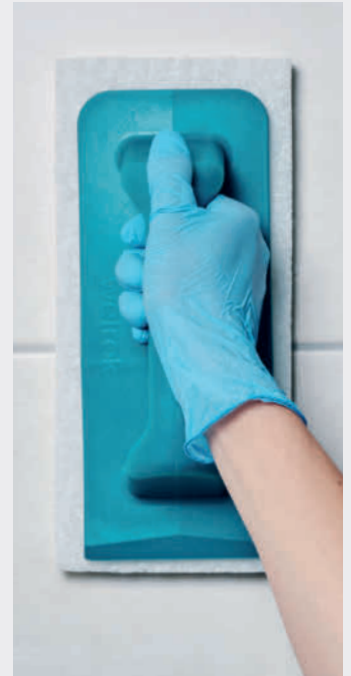

The handle is designed to allow for different grips, always as ergonomic as possible.

##### Best possible transfer of force

The symmetrical handle design enables optimal transfer of force onto the cleaning pads.

##### Suitable for right-handed or left-handed use

The handle is shaped to offer an ideal grip for right-handed or left-handed use. For added support, the surface finish makes the tool pleasant to grip even during more extended periods of use.

#### Your ergonomic bonus:

With these two cleaning tools, you can clean more efficiently, more ergonomically, with more strategic application of force and considerably less fatigue than when cleaning manually.

## Product details

| Art. No.              | Description                              | Dimensions   |
|-----------------------|--|--------------|
| 80112                 | <b>Edge cleaning tool</b>                | 23 × 9.65 cm |
| Accessories required: |  |              |
| 81413                 | Telescopic handle for ergonomic cleaning | 99 – 183 cm  |
| 81416                 | Telescopic handle for ergonomic cleaning | 54 – 100 cm  |
| 81410                 | Aluminium handle                         | 140 cm       |
| 80116                 | <b>Manual cleaning tool</b>              | 23 × 9.65 cm |

### The right cleaning pads for you:

The following cleaning pads are ideally suited for use with Wetrok's edge cleaning tool and manual cleaning tool:

#### Maxi-Pads

The Maxi-Pad is the ideal companion for efficient removal of stubborn dirt. It is versatile and ensures thorough removal of dirt from smooth surfaces.

- White (low abrasiveness, not suitable for high-gloss finishes, paint and acrylic glass)
- Green (moderate abrasiveness, for deep cleaning of scratch-resistant surfaces)
- Black (high abrasiveness, for deep cleaning of scratch-resistant surfaces)

#### Melamine unit pad (special pad, very highly abrasive)

The Melamine hand pad is a highly efficient dirt eraser for stubborn soiling. It is versatile and ensures thorough removal of dirt from smooth, hard surfaces (not suitable for gloss and matt plastic finishes or painted surfaces).

#### Microsol fibre edge pad (special pad, very low abrasiveness)

The soft Microsol fibre edge pad made of polyester is the gentle alternative for smooth and textured surfaces that are very sensitive to scratching. This makes it ideally suited for efficient yet gentle removal of stubborn dirt from sensitive surfaces.

| Art. No. | Description            | Dimensions     | Abrasiveness | Water absorption |
|----------|------------------------|----------------|--------------|------------------|
| 82156    | Maxi pad, green        | 26 × 12 cm     | +++          | ++               |
| 82157    | Maxi-Pad black         | 26 × 12 cm     | ++++         | ++               |
| 82149    | Maxi-Pad white         | 26 × 12 cm     | ++           | ++               |
| 82189    | Melamine equipment pad | 27.7 × 11.5 cm | ++++         | +                |
| 82158    | Microsol pad for edges | 25 × 12 cm     | +            | +++              |
