

World innovation!

Adjustable anti-slip

Wetrok Libero
Surfactant-free – anti-slip – dirt-repellent

Wetrok Libero – the universal cleaner

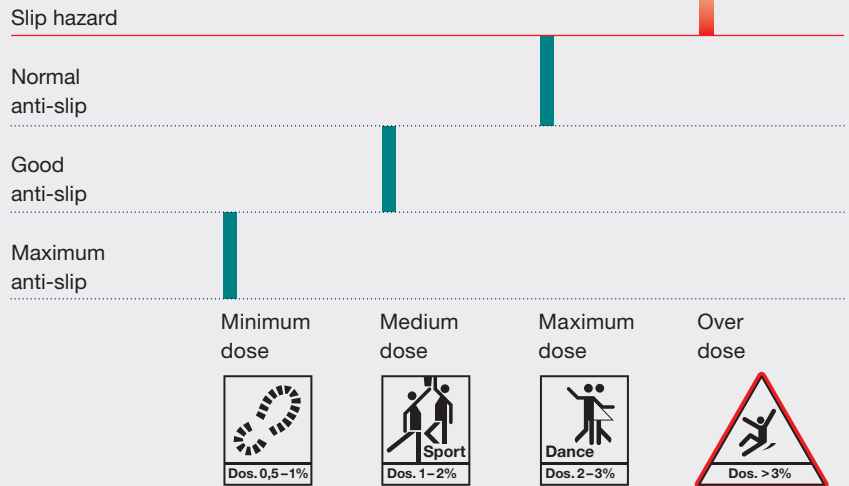

Just mop it once – and the playing field is transformed into a flexible dancing floor. Depending on the dosage, the maintenance cleaner Wetrok Libero determines the anti-slip level of water-resistant floors. The Libero deserves to be a member of any team: supertalented, dirt-repellent, versatile – and surfactant-free. A cleaner for everything – from Wetrok.

Choose your level of anti-slip for smooth floors!

With Libero, you will no longer worry about your multi purpose rooms that are used for gymnastics, dancing and conferences. Just adjust the dosage of Libero for your usage and your floor has the exact anti-slip level you require. You can be sure that whoever uses the room can relax and enjoy it.

Warning

The level of anti-slip varies in inverse proportion to the dosage: the lower the dose, the higher the anti-slip performance. Caution: Do not exceed the maximum dose when cleaning floor surfaces – risk of slippery floor.

Don't give Dirt a Chance!

Try it once and you will be convinced – the maintenance cleaner Wetrok Libero gets full marks for cleaning and at the same time activates the floor! After the second application you can remove any new dirt with ease. Dirt has much less chance of penetrating the activated surface, and adheres hardly at all. Wetrok Libero cleans and nurtures at the same time – making your wet mopping and scrubber-drying operations even more efficient!

Surfactant-free and environmentally friendly

Wetrok Libero is different from traditional cleaning products – the ultra-effective universal cleaning agent works without surfactants. This is an absolutely revolutionary formula and acts to the benefit of the environment.

**The Libero should be a member of your team.
Your personal sales representative will be happy to visit you.**

1 x 10 L package: art. no. 11.800
