

BrushBoy Plus and Motor Brusher
Two for the difficult jobs

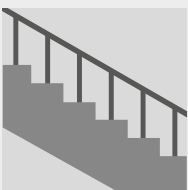

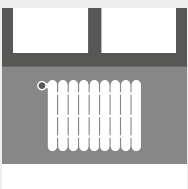

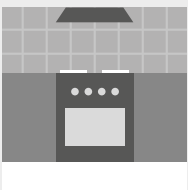

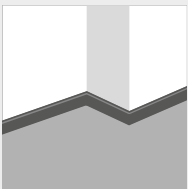

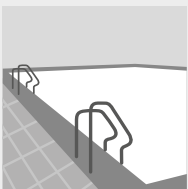

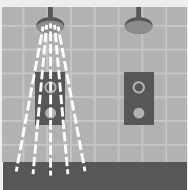

wetrok[®]

Two compact helpers for hard-to-reach areas

Working on hands and knees is a thing of the past: Physically demanding jobs like scrubbing tile joints and shower bases just became a whole lot easier, because the Wetrok BrushBoy and Wetrok Motor Brusher are specialists for walls, joints, and hard-to-reach places such as corners and stairs. Ergonomics, performance, and cleaning quality are significantly increased when using a machine.

Areas of application:

BrushBoy Plus The versatile lightweight

Ready for anything

The cleaning solution in the optional 1.7 l tank is sprayed precisely onto stubborn dirt with a simple press of a button on the telescopic handle.

Quick-change artist

The Wetrok BrushBoy is transformed into a handheld machine in seconds: Simply remove the brush head from the telescopic handle, attach the ergonomic grip – and off you go!

With lithium battery for optimum performance

Incredibly efficient, extremely durable. The lithium battery. It turns the BrushBoy into a super sprinter. Go for it!

Seamless hygiene

Two counter-rotating brushes/pads allow precise handling, meaning edges, corners, and recesses are cleaned thoroughly.

BrushBoy Plus
Art. no. 20004

Motor Brusher/Motor Brusher JET The tireless power packages

Hard-to-reach places

The machine's low ground clearance means that dirt doesn't stand a chance – even in hard-to-reach places like under radiators and toilet bowls.

Flexible joint system

Sophisticated joint systems ensure that the brushes and pads are always flush with the surface, and that the working angle can be adapted as needed.

Reach for the sky

While the standard telescopic handle extends from 75 to 115 cm, the motor brusher with its 40 cm handle is transformed into a handheld machine in the blink of an eye. A telescopic handle with a 2 m reach is optionally available as well.

Spraying power par excellence

Pinpoint spraying power - with the Motor Brusher JET. Accurate dosing of chemicals and water – no more random spraying!

Endless power

The high performance battery pack allows for up to 4 hours of uninterrupted work. The battery pack is carried in a comfortable Wetrok backpack.

Robust lightweight

The scrubber head is waterproof and weighs less than 2 kg with the telescopic handle and the ergonomically padded grip.
